

CONSULT THE TABLE

Check out which type of waste will be gathered every day in your area by following the coloured boxes. Each colour in the table corresponds to the type of waste that will be collected. Put the dustbin out everyday from 9.00 to 12.00 pm, according to the type of waste expected for that day. (Example: On Sunday, Urban Area, the box contains three colors, brown, yellow and blue: this means that from 21:00 to 24:00 it is possible to put the organic, cardboard and plastic dustbins out.)

The colours in the map show the different collection urban areas. Follow the colours to find your area.

Check out which type of waste will be gathered every day in your area by following the coloured boxes. Cut the part of the area to which you belong in and keep it as a reminder to quickly consult the calendar.

*

Attention: non-domestic users can only throw paper on monday; be sure to properly separate the cardboard packaging from the paper.
