

## CONSULT THE TABLE

Check out which type of waste will be gathered every day in your area by following the coloured boxes. Each colour in the table corresponds to the type of waste that will be collected. Put the dustbin out everyday from 9.00 to 12.00 pm, according to the type of waste expected for that day. (Example: On Monday, the box contains three colors, brown, blue and grey: this means that from 9.00 pm to 12.00 pm it is possible to put the organic, cardboard and mixed waste dustbins out).

Check out which type of waste will be gathered every day following the coloured boxes.
